### About This Game

*The flame that burns twice as bright burns half as long, and so it is with the lives of young shinobi. Death comes swiftly — for the lucky ones — and for those still living, grief is a constant companion. Ryōbi and Ryōna, two shinobi sisters of the Hebiyo Clandestine Girls' Academy elite, know that truth all too well, and they mourn their beloved elder sister every day.*

*But when a mystical phenomenon appears, drawing the shinobi world's finest young ladies into a parallel dimension, everything they know about life and death turns upside down. Taken to a strange world resembling a warm summer island, the girls find themselves face to face with their departed loved ones.*

*The island's mysterious mistresses challenge the girls, who hail from four different rival schools, to a contest of strength and wits. The winning school, so they promise, will not only learn the highest secrets of shinobi lore, but will also have the honor of laying their loved ones' souls to rest.*

*The buxom beauties prepare for a new kind of battle, facing not only their rivals, but questions galore. Can the islands' hosts be trusted? Will the other schools play fair, team up, or cheat? Will there be time to enjoy the beach before the fighting starts? Will anyone manage to keep their clothes intact? And...if they do win, can they bear to part from their loved ones a second time? ~~~~~*

The high-flying, high-bouncing ninja girls of *SENTRAN KAGURA* return, this time with more moves, more playable characters, more story and attitude, and more destruction online with matches that can support up to 10 players. All the previous shinobi girls return with a host of upgraded moves to master, and new playable characters offer more challenges to conquer, along with a story that's equal parts sexy and shocking, serious and scandalous, busty and brawling.

I just like the gameplay. Very polished graphics wise, characters are also super cute and what not. But it's the gameplay that does nothing for me. I've played Dynasty Warriors, and Samurai Warriors in the past and loved those games. But combat in this game is really boring imo, combos are meh, and the enemies barely do anything but stand there waiting to get hit.

If you like fan service for fan service sake then this game will probably be up your alley. But if you want fan service with fun or deep combat my advice is look else where.. it got big tiddie 10/10
